DECORATIVE EFFECTS

TRAINING

Polyvine are proud to work with the majority of UK training facilities, including the following stockist academies from Dulux Decorator Centre and Brewers Decorator Centres.

Dulux Academy is the home of painting and decorating excellence. Whether you're just starting out in your career or a time served decorator we're sure we have something that will support you to reach your personal and professional ambitions.

Professional painters and decorators deserve access to high-quality training and development that helps them stay ahead in their trade. The Brewers Decorator Academy delivers exactly that. As the UK's largest independent decorators' merchant, with a comprehensive multi-brand product offering, Brewers provides professional training courses designed to help decorators expand their knowledge, refine their skills, and keep up to date with the latest products, techniques, and industry best practices.

ASSOCIATIONS

Polyvine are proud members of the following associations.

DECORATORS VARNISH® INTERIOR AND EXTERIOR

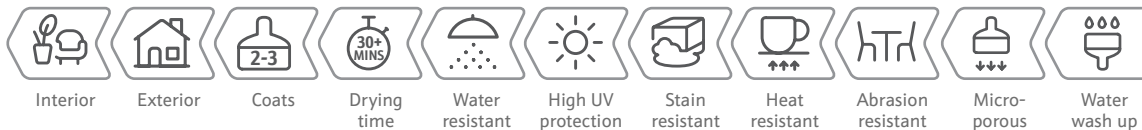

A water-based varnish that's perfect for the protection of emulsion paint, wallpaper, interior wood, murals and many other surfaces, giving long-term protection against finger marks, stains, scuffing and colour fading, as well as ageing and deterioration due to its UV blocking properties.

IDEAL FOR

- ✓ Wallpaper
- ✓ Emulsion
- ✓ Interior wood
- ✓ Plaster
- ✓ Decorative effects
- ✓ Murals

UNIQUE QUALITIES

- ✓ Water and stain resistant
- ✓ Durable
- ✓ Easy to apply
- ✓ Water wash up
- ✓ Water-based
- ✓ Low odour
- ✓ Quick drying
- ✓ Interior and exterior use (except exterior bare wood)

COVERAGE: 10-20 square metres per litre

DRYING TIME: 30 minutes

100ml, 500ml, 1 litre, 2 litre (satin and dead flat) 4 litre

MULTI-SURFACE LACQUER INTERIOR AND EXTERIOR

A durable, crystal-clear, fast-drying lacquer for multi-surface protection. This high-quality lacquer dries to a hard, dead flat, satin or high gloss finish. It has extremely good sanding properties and is specially formulated to bond to a wide range of surfaces. Can also be used as a multi-surface primer.

IDEAL FOR

- ✓ Tile
- ✓ Metal ferrous and non-ferrous
- ✓ Laminate
- ✓ Ceramic
- ✓ Glass
- ✓ Plastics
- ✓ Interior wood
- ✓ Paint

UNIQUE QUALITIES

- ✓ Very hard and durable finish
- ✓ Water resistant
- ✓ Stain resistant
- ✓ Heat resistant
- ✓ Very good sanding properties
- ✓ Quick drying
- ✓ Highest gloss of all water based varnishes
- ✓ Interior and exterior use (except exterior bare wood)

COVERAGE: 15-20 square metres per litre

DRYING TIME: 20 minutes

100ml, 500ml, 1 litre, 4 litre

HEAVY DUTY VARNISH

INTERIOR POLYURETHANE

An ultra-tough, high-quality, cross-linking water-based polyurethane varnish designed to give ultra-tough protection against chemicals, cleaning agents, alcohol and oils, and high wear. It's a great choice for interior surfaces that need a high level of protection such as work surfaces and areas of high use. Quick-curing in 16 hours, providing an industrial-level finish.

IDEAL FOR

- ✓ Doors
- ✓ Furniture
- ✓ Wood panelling
- ✓ Worktops and kitchen cabinets
- ✓ Emulsion paint
- ✓ Slate and unglazed tiles

UNIQUE QUALITIES

- ✓ Cures in 16 hours
- ✓ Non yellowing
- ✓ Heat resistant
- ✓ Water, stain and chemical resistant
- ✓ Industrial level of finish

COVERAGE: 15-20 square metres per litre

DRYING TIME: 45 minutes

100ml, 500ml, 1 litre, 4 litre

HEAVY DUTY FLOOR VARNISH

INTERIOR POLYURETHANE

An ultra-tough, high-quality, cross-linking water-based polyurethane varnish designed to provide protection for interior floors. It's been specially formulated for floors and areas of high wear, giving ultra-tough protection against scuffs and scrapes in high-traffic areas. Quick-curing in 16 hours providing an industrial level of finish.

IDEAL FOR

- ✓ Wooden floors
- ✓ Flagstones
- ✓ Concrete
- ✓ Slate
- ✓ Unglazed tiles
- ✓ Emulsion paint

UNIQUE QUALITIES

- ✓ Cures in 16 hours
- ✓ Non yellowing
- ✓ Traffic resistant
- ✓ Water, stain, heat and abrasion resistant
- ✓ Industrial level of finish

COVERAGE: 15-20 square metres per litre

DRYING TIME: 45 minutes

100ml, 1 litre, 2 litre, 4 litre

INTERIOR EXTREME VARNISH

POLYURETHANE

An ultra-tough, high-quality, cross-linking water-based polyurethane varnish designed to provide extreme protection on interior wood, furniture, flooring, concrete, slate and flagstones. Water, stain, heat and chemical resistant, with additional high UV protection. Quick-curing in 16 hours providing an industrial level of finish.

IDEAL FOR

- ✓ Furniture
- ✓ Wood
- ✓ Concrete
- ✓ Flooring
- ✓ Slate
- ✓ Flagstones

UNIQUE QUALITIES

- ✓ High UV resistance
- ✓ Water resistant
- ✓ Cures in 16 hours
- ✓ Industrial level of finish

COVERAGE: 15-20 square metres per litre

DRYING TIME: 45 minutes

100ml, 1 litre, 2 litre, 4 litre

WAX FINISH VARNISH

INTERIOR

A unique and traditional, wax-like, brush-on, protective varnish, combining the silky feel of wax with the durability of a varnish. Reminiscent of the traditional feel of lovingly preserved furniture, it retains the natural appearance of the wood.

IDEAL FOR

- ✓ Interior wood
- ✓ Furniture
- ✓ Kitchen cabinets
- ✓ Emulsion paint

UNIQUE QUALITIES

- ✓ Interior
- ✓ Perfect furniture finisher
- ✓ Water resistant
- ✓ Heat resistant
- ✓ Abrasion resistant
- ✓ Water wash up

COVERAGE: 15-20 square metres per litre

DRYING TIME: 45 minutes

100ml, 500ml, 1 litre, 4 litre

2K-POLY86 2 PACK VARNISH FOR WOOD FLOORS & SURFACES

INTERIOR POLYURETHANE

2K-POLY86 is Polyvine's highest-performance interior polyurethane varnish for wood. Combining advanced two-pack technology with the convenience of a water-based formulation, it delivers exceptional resistance to wear, chemicals, stains and heavy traffic. Designed for commercial and high-use environments.

It provides a professional finish that stands up to the toughest conditions while allowing projects to return to service quickly.

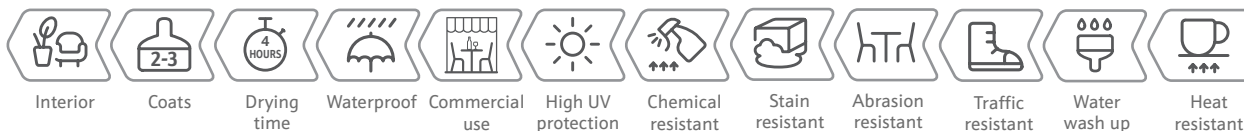

Combining over 40 years of coating expertise with professional two-pack polyurethane technology, it delivers commercial-grade protection for the most demanding interior wood surfaces.

IDEAL FOR

- ✓ All interior wooden floors
- ✓ Interior timber
- ✓ Sports halls
- ✓ Offices
- ✓ Museums
- ✓ Restaurants & cafés
- ✓ Bartops
- ✓ Commercial staircases
- ✓ Schools, colleges and universities

UNIQUE QUALITIES

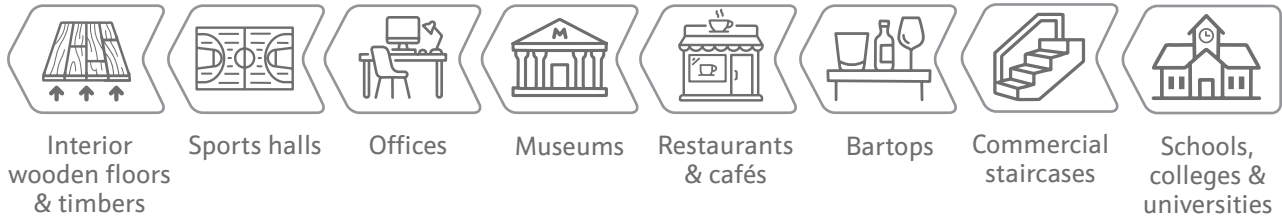

- ✓ Use after 12h / full cure 72h
- ✓ High UV protection
- ✓ Waterproof
- ✓ Use on high wear and high impact commercial areas
- ✓ Highest chemical, alcohol and stain protection

COVERAGE:
10 square metres per litre

DRYING TIME:
4 hours

KITS: 1.1 litre kit (contains 1 litre varnish, 100ml hardener)
4.4 litre kit (contains 4 litre varnish, 400ml hardener)

ALL PURPOSE WOOD OIL

INTERIOR AND EXTERIOR

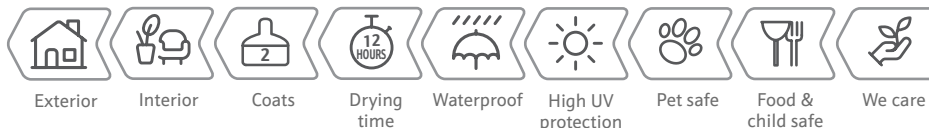

An ultra-low VOC oil, offering deep penetration for surfaces requiring a waterproof finish with UV protection. Based on renewable oils, this unique oil protection for wood, gives a silky sheen finish and highlights the natural grain of the wood, with no added solvents, perfect for softwood and hardwood timber applications. Our Wood Oil contains less than 7g/l VOC, compared to the EU industry-accepted standard of 400g/l VOC.

IDEAL FOR

- ✓ Furniture
- ✓ Floors
- ✓ Worktops
- ✓ Doors / Windows
- ✓ Cladding
- ✓ All wood surfaces

UNIQUE QUALITIES

- ✓ High UV protection
- ✓ Waterproof
- ✓ No added solvents
- ✓ Biocides protect against algae, mildew and fungal attack
- ✓ Under 7g/l VOC

You can colour our All-Purpose Wood Oil with 10% of Polyvine Oil Colourant

COVERAGE: 15-20 square metres per litre

DRYING TIME: touch dry 12 hours

100ml, 500ml, 1 litre, 2.5 litre

OIL COLOURANT

USE TO COLOUR ALL-PURPOSE WOOD OIL

To transform any oil-based products, use Polyvine's Oil Colourant. Featuring dense pigments for colouring glaze, paint and varnishes, our Oil Colourant is available in 10 concentrated colours for superior colour saturation.

You can colour all clear oil-based products with 10% oil colourant, including our All-Purpose Wood Oil

- ✓ Varnish
- ✓ Filler
- ✓ Glue
- ✓ Tile grout
- ✓ Cement

25 COLOURS* available in 50g and 13 COLOURS available in 500g

*Colourants and enamels available in display stands

METALLIC PAINT

INTERIOR AND EXTERIOR

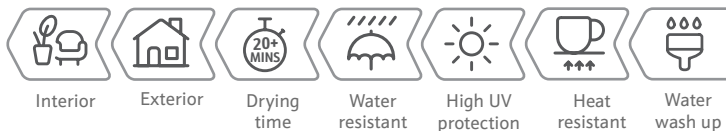

A luxurious finish for interior and exterior use, and available in 7 colours, this Metallic Paint offers deep and rich colours, and a sleek, shimmering finish that dries to a polished lustre, recreating the shimmering richness of classic metals. No primer or top coat needed. Make your own shimmering pastel colour by mixing a Polyvine Acrylic Colourant into Metallic Pearl.

IDEAL FOR

- ✓ Furniture
- ✓ Interior walls
- ✓ Metalwork
- ✓ Gates and railings
- ✓ Furniture
- ✓ Statues
- ✓ Mouldings

UNIQUE QUALITIES

- ✓ Highly durable
- ✓ Superior metallic sheen
- ✓ Retains metallic lustre
- ✓ Water resistant
- ✓ High UV protection
- ✓ Heat resistant

COVERAGE: 15-20 square metres per litre

DRYING TIME: 20 minutes

100ml, 500ml, 1 litre, 2 litre

GLITTER PAINT MAKER

Add a sparkly edge to any decorative finish with this shimmering metallic glitter that's been specially developed to be added to any water-based paint or varnish. Choose from four different colours of glitter, (Gold, Silver, Pink or Rainbow), and simply mix with your choice of coloured paint or varnish to create a truly unique, sparkling decorative effect.

COVERAGE: 75g tub per 2.5 litre (depending on the paint or varnish used)

75g

STONE AND BRICK PROTECTOR

INTERIOR AND EXTERIOR

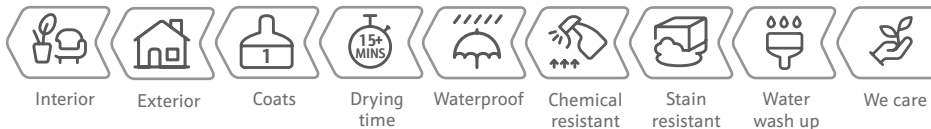

Invisible, penetrative and waterproof, Stone and Brick Protector seals and protects without changing the appearance of the substrate – all with one coat. A water-based masonry protector and water repellent, it penetrates porous substrates to form a barrier to water, moisture, grease, oil, acid, alkali and salts. It'll also suppress mould and fungal growth, and the formation of salts on natural masonry surfaces. With ultra-low solvents and ultra-low VOCs (under 1g/l).

IDEAL FOR

- ✓ Brick
- ✓ Stone
- ✓ Flagstones
- ✓ Slate
- ✓ Plaster
- ✓ Sandstone

UNIQUE QUALITIES

- ✓ One coat
- ✓ Ultra-low 1g/l VOC
- ✓ Ultra-low solvents
- ✓ Moisture barrier
- ✓ Improves weatherability suppresses formation of salts on natural masonry surfaces
- ✓ Highly chemical resistant and waterproof

COVERAGE: 15-20 square metres per litre

DRYING TIME: 15+ minutes

100ml, 1 litre, 4 litre

- ✓ Removes multiple coats
- ✓ Ultra-low 1g/l VOC
- ✓ Ultra-low solvents
- ✓ No need to neutralise the substrate

COVERAGE: 4-6 square metres per litre

REMOVAL TIME: From 30 minutes

1 litre, 2 litre, 4 litre

MOULDGUARD FUNGICIDAL CLEANER

INTERIOR AND EXTERIOR

Mouldguard is a ready-to-use, high-performance fungicidal cleaner that removes mould, mildew, algae, and bacteria while sterilising wooden surfaces to prevent regrowth. Its thixotropic, water-based formula works on both vertical and horizontal surfaces, making it ideal for preparing timber before coating. Free from hazardous solvents and alkalis, it's safe for use on all surface types, including hard and soft wood, without causing efflorescence.

IDEAL FOR

- ✓ Internal wood
- ✓ External wood

UNIQUE QUALITIES

- ✓ Complete biocidal protection
- ✓ Kills mould prior to decorating
- ✓ Long-lasting protection
- ✓ Continues to kill spore and mould
- ✓ Bleach free

COVERAGE: 4-6 square metres per litre

1 litre, 4 litre

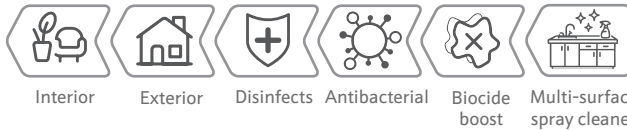

SURFACECLEAN PRO

Polyvine SURFACECLEAN PRO is a ready-to-use cleaner that removes dirt, disinfects surfaces and neutralises odours across a wide variety of surfaces, leaving a fresh, residue-free finish without rinsing.

UNIQUE QUALITIES

- ✓ Professional ready-to-use spray cleaner
- ✓ Suitable for interior and exterior use
- ✓ Multi-surface formula
- ✓ Cleans, disinfects and helps eliminate odours
- ✓ Antibacterial
- ✓ Remove everyday dirt and stubborn marks
- ✓ Low-foaming formulation
- ✓ Leaves no residue or streaks
- ✓ Fresh, clean fragrance
- ✓ Suitable for domestic and commercial use

500ml (makes up to 50L)

THE THREE AMIGOS STORY

Do you know the story behind the original skull murals at The Three Amigos Skate Shop in Camden, London? On their original shop exterior art, Polyvine Decorators Varnish was used to protect the vibrant colours from fading over time.

This mural was on display for around nine years, but a few years down the line, Polyvine were sent an image of the mural, which had faded everywhere but on the skulls! Why? Well, the varnish had only been applied around the skull artwork, to protect these gorgeous colours, and not on the background.

This simply shows how effective our Decorators Varnish is for protecting against the UV rays that cause colours to fade over time.

BRUSHES AND TOOLS

From varnish and paint brushes, to a range of traditional decorative effects tools, Polyvine offers a selection of brushes, tools and accessories to support the use of their products.

DECORATIVE EFFECTS

ORIGINAL SCUMBLE

A stunning acrylic transparent glaze for decorative paintwork, giving up to one-hour's working time before drying to a durable, water-resistant finish on a wide range of surfaces. Colour it with an Acrylic Colourant for stunning decorative paint effects.

IDEAL FOR

- ✓ Colour washing
- ✓ Dragging
- ✓ Graining
- ✓ Marbling
- ✓ Frottage or leather effect
- ✓ Stippling

UNIQUE QUALITIES

- ✓ One-hour working time
- ✓ Water and stain resistant
- ✓ Dries to a translucent finish

COVERAGE: 10-20 square metres per litre

500ml, 1 litre, 4 litre

TROPICAL SCUMBLE

This is a unique and transparent acrylic glaze for decorative paintwork in temperatures above 21°C/70°F, or in lower temperatures where a longer working time is required. It dries to a durable water-resistant finish on a wide range of surfaces. Colour it with an Acrylic Colourant for stunning decorative paint effects.

IDEAL FOR

- ✓ Colour washing
- ✓ Dragging
- ✓ Graining
- ✓ Marbling
- ✓ Frottage or leather effect
- ✓ Stippling

UNIQUE QUALITIES

- ✓ One-hour working time
- ✓ Dries to a translucent finish

COVERAGE: 10-20 square metres per litre

500ml, 1 litre, 4 litre

CLASSIC COLOUR SCUMBLE

This Classic Colour Scumble Clear Acrylic Glaze can be mixed with emulsion, offering a one-hour working time. When coloured with satin or matt emulsion/latex, this beautiful acrylic glaze can be used to produce semi-transparent coloured paint effects.

IDEAL FOR

- ✓ Colour washing
- ✓ Ragging/bagging
- ✓ Dragging
- ✓ Sponging
- ✓ Stippling

UNIQUE QUALITIES

- ✓ One-hour working time
- ✓ Dries to a translucent finish

COVERAGE: Depends on emulsion paint used

1 litre, 2 litre, 4 litre

ACRYLIC CRACKLE GLAZE

Designed for use with emulsion or latex paint, this acrylic medium produces consistent cracking for dramatic effect. Apply Polyvine Crackle Glaze between two layers of emulsion base coat. This will cause the top layer to crack, revealing the colour of the base coat. Use a good-quality brush to avoid brush marks, and allow the base coat to dry thoroughly before layering.

IDEAL FOR

- ✓ Furniture
- ✓ Pottery
- ✓ Decorative aged effects
- ✓ Skirting/architrave
- ✓ Picture frames

UNIQUE QUALITIES

- ✓ Easy to apply
- ✓ Low odour
- ✓ Quick drying

COVERAGE: 8 square metres per litre

100ml, 500ml, 1 litre

CRAQUELURE SYSTEM

(System contains top coat, base coat, dark and light highlighter. Products all bought separately)
This high-quality Polyvine product produces a cracked varnish effect for a traditional aged finish.

By using a simple two-part (base coat and top coat) clear acrylic system, this varnish faithfully reproduces the regular crazed pattern associated with old porcelain glazes.

The crackle effect produced by craquelure can be accentuated with a crack highlighter, available in either white or dark brown for a truly aged finish. Please note that you need to buy both the base coat and the top coat to create the effect.

IDEAL FOR

- ✓ Antiquing
- ✓ Decoupage
- ✓ Small objects
- ✓ Picture frames
- ✓ Decorative finishes

UNIQUE QUALITIES

- ✓ Easy to apply
- ✓ Low odour
- ✓ Quick drying

COVERAGE: 8 square metres per litre

100ml, 500ml, 1 litre, 50g (highlighter)

METAL LEAF ACRYLIC SIZE INTERIOR

Create metal leaf and foil masterpieces with Polyvine's specialist Metal Leaf Size Acrylic Adhesive, suitable for interior use. When applied thinly, the surface will remain primed for up to 24 hours, allowing large projects to be handled with ease.

IDEAL FOR

- ✓ Bonding metal leaf and foils
- ✓ Gilding

UNIQUE QUALITIES

- ✓ Extended working time
- ✓ Low odour
- ✓ Easy to apply

COVERAGE: 10-15 square metres per litre

100ml, 500ml, 1 litre

ACRYLIC GLASS FROSTING

Polyvine's Glass Frosting is an acrylic medium that creates the stunning visual effect of etched glass. It's designed for interior use on most glass and plastics to give the effect of frosted glass. You can also use Glass Frosting with stencils to transform plain glass panels.

IDEAL FOR

- ✓ Windows
- ✓ Mirrors
- ✓ Shower screens
- ✓ Frosted glass effect
- ✓ Decorative stencil effect

UNIQUE QUALITIES

- ✓ Easy to apply
- ✓ Low odour
- ✓ Quick drying

COVERAGE: 8 square metres per litre

100ml, 500ml

ACRYLIC ENAMEL PAINT

Whatever your creative project, our Acrylic Enamel Paint range, available in 35 intermixable colours, is the perfect replacement for a traditional solvent-based enamel. Durable, with a long-lasting finish, they're completely safe for children's toys, and can be applied using a brush or an airbrush. They've been specially developed for easy use, internally or externally, and are non-hazardous and low odour.

IDEAL FOR

- ✓ Plastics
- ✓ Metal
- ✓ Interior
- ✓ Exterior
- ✓ Card
- ✓ Porcelain
- ✓ Safe for children's toys
- ✓ Wood
- ✓ Ceramic
- ✓ Glass

UNIQUE QUALITIES

- ✓ Fast-drying
- ✓ Water-based low odour
- ✓ Easy to apply and intermixable
- ✓ water wash up

OUR PHILOSOPHY... IT'S A FAMILY THING

Polyvine was started by Peter and Anne Wells in 1986, and to this day, three generations of the Wells family work at the offices and factory site in Cheddar.

Now Technical Director, Peter works directly alongside his grandson Joe in the laboratory, sharing his years of knowledge and passing on his wealth of experience, while his granddaughter Beth takes care of things in the sales office.

Peter Wells, The Founder

Ian Wells, MD, heads up the company, with his wife and children working alongside him in various areas of the business. Even extended family members are part of the team, so family really is at the core of Polyvine's values.

Polyvine is a business whose bloodline runs with trust, integrity and hard work - an essential mix of values for any successful business.

We care

NATURALLY... WE CARE

As a company, Polyvine is working towards minimising our impact on the environment by reducing the carbon footprint of the business, reducing energy consumption, minimising the production of all types of waste through careful recycling, encouraging reuse, and the disposal of other waste that cannot be avoided, in a responsible manner.

Manufactured in the UK - low transportation miles

Solar panels - reduces our energy consumption from the grid

Energy saving lights - reduces our energy usage

Plastic - all plastic packaging right down to the plastic backing from our labels is recycled

Water treatment plant - this separates waste from water, which is returned to the sewer after equipment is washed down

Cardboard - all unused cardboard is collected and recycled

Plastic bottles - we use recycled plastic for our recyclable bottles, and they are recyclable

Metal - steel drums and metals are collected and sent for scrap metal recycling

Printer cartridges - our used printer cartridges are collected and recycled

Old documents and paper - shredded and recycled

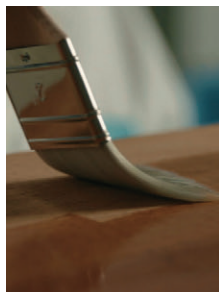

Safety gloves - for pumping material, cleaning and wash-down of equipment are reusable

Stretch wrap - all our used wrap is recycled

Pallets - damaged pallets are recycled

APPLICATION OF WATER-BASED VARNISH

Before any application of water-based varnish, always raise the grain on raw wood by simply brushing, sponging or spraying on some distilled water and letting it dry overnight. Then do a final sand to break off the whiskers.

BRUSHING

Stir varnish well; never shake it. Shaking can introduce bubbles. Use a thin varnish brush with fine synthetic bristles. Dip the brush into the varnish, loading it with an amount appropriate to the surface at hand. To prevent brush marks and bubbles, brush the finish onto the surface in quick, long strokes. Do not rework over areas already covered. Allow the first coat to dry completely - but no longer than 24 hours - before sanding with 220-grit

sandpaper. Apply the second coat exactly as the first. Repeat the sanding and cleaning process for the third coat.

SPRAYING

Polyvine water-based topcoats and wood stains are ready to spray from the container without additives. Always strain material through a medium-to-fine mesh filter before spraying. Apply spray films at a wet thickness of 3-5 ml. If you have never sprayed finishes before, take a large piece of cardboard and practice your technique first. Spray water on the cardboard to learn how the gun works. Keep your gun at a 90° angle, 6-8" from the surface. On large

flat areas, use wet, even patterns 6-8" wide. For narrow surfaces, reduce the fan pattern to 2-3" to reduce overspray. For topcoats, overlap each pass by 25% to conceal lines.

ROLLER

Choosing the right roller is crucial for getting a smooth, even finish. Use a short-pile gloss roller for water-based varnish. Do not apply pressure to the roller, this will cause uneven film and produce bubbles in the varnish. When rolling varnish, use slow, steady strokes and a good technique to ensure a uniform finish. For a smooth finish with even coverage, use overlapping roller strokes and a brush to manoeuvre around corners and details.

3 HIGH PERFORMANCE FINISHES

Gloss

Give your project a glossy glow, with our ultra shiny gloss finish.

Satin

If you're looking for a subtle sheen, then our satin finish is the one for you. Look for the satin finish across the Polyvine range for a beautiful soft finish.

Dead Flat

We are very proud of the Polyvine Dead Flat finish. The completely non-reflective, matte surface is available across a number of our varnish products.

- ✓ Suppliers to the trade
- ✓ Made in the UK

We mostly manufacture water-based varnishes that have much shorter drying and curing times, that are easy to apply and have all the features that trade professionals demand.

Polyvine are also the specialists in the production of high performance, dead flat varnishes, which are made with our own matting agent which has been scientifically formulated to work with our varnish to give a completely non-reflective, smooth, flat finish.

Our bottles and labels are made using recycled plastics. For full recycling information, please visit our website.

Our products are food, child, pet and plant safe once applied and completely dry.
